## Angry Mouths To Feed

Hundreds tragically died at the hands of HARO yesterday during a riot in the outskirts of the Pendorf district. It is, as yet unknown what specifically caused the people to attack the pair of heavily guarded food distribution transports. What is known is that tensions in the area have risen due to spiralling food prices and a recent incident involving a soul-streamer race.

A crashed streamer caused one of the densely populated towers in the Steel Haven district to become a towering inferno. The number of casualties as a result of the fire will never be known. But the incident has left a lot of hungry people with nowhere to go.

The spiralling food prices are clearly part of a secret underhanded government policy to force the population into increasing the number of children given up for registration.

So it should come as no surprise that these sorts of incidents are on the rise. They will continue to increase exponentially until those in charge make drastic changes to their inhumane policies.

## SIC of Opol

In a move that comes as no surprise, O-gov has decided to expand the SACOP branch of O-pol. Specifically we have been informed that the number of SIC operatives has in fact been doubled. They site a substantial increase in shatterzone activity as the reason for this increase of personal.

This is the typical knee-jerk reaction that we have come to expect from the powers that be, and has noting to do with the shatterzones.

They simply want to increase their iron grip on an already stifled and shackled population.

This picture was captured at the scene of the riot prior to the arrival of the O-gov cleanup crews.

## Increasing CARnage!!

Once it was the realm of street thugs and minor gangs. But it would appear that the brutal street racing conducted by the gangs of the underworld has become a good business.

The substantial prise money and wagering opportunities are now attracting some of the higher ups.

It is believed that Derk Duster's car is financed by Lord Jord himself, though you didn't hear that from us. Oh and good luck proving it....

There are even a number of Citizens entering vehicles. Most are opting to have un-reg drivers and crew in their cars. However this is not always the case, with at least one of the entrants in the upcoming race said to be an entirely Citizen crew.

If you don't know where it is or when then quite frankly you probably shouldn't and we aren't going to tell you.

So have a good time on us. We will see you there!!
